

CiMaS SUPPORT AT HOME PRICING

01/11/25

The Support at home is a subsidised program funded by the Australian Government to help meet your needs to remain in your own home. The Government pays a subsidy amount to an Aged Care Provider depending on the level of Home Care Package that you have been granted.

As a Provider, CiMaS will give you a budget that informs you of the amount of subsidy you have been allocated and how that subsidy will be spent. Below is a list of fees and charges that can be deducted from your subsidy.

CiMaS provides a range of services to help you live at home on your own terms, including personal care such as hygiene, home duties, meal preparation, respite care and nursing services.

At CiMaS we have a designated Support at Home coordinator for clients to talk to and discuss individual preferences for a tailored care plan and budget and ensure services adapt to changes in circumstances.

A Nurse led Clinical Governance Committee meets weekly to review client notes and feedback. This process allows us to regularly monitor the knowledge and skills of our team and the quality of services delivered.
